Re:

McLeodUSA Telecommunications Services, Inc. d/b/a PAETEC Business Services Arizona Access Tariff No. 7
Docket No. T-03267A-11-0459

Dear Sir or Madam:

Per discussions with Staff, attached are revisions to Section 2.3.4 in accordance with those discussions.

Please call me at 501-748-6856 if you have any questions regarding this filing.

Sincerely,

Chris Cranford

SECTION 2 - REGULATIONS

- 2.3 Obligations of the Customer (Cont'd)
 - 2.3.4 <u>Identification and Rating of VoIP-PSTN Traffic (cont'd)</u>
 - (C) Calculation and Application of Percent-VoIP-Usage Factor

The Telephone Company will determine the number of toll VoIP traffic minutes of use ("MOU") to which it will apply its interstate rates under subsection (B), above, by applying an originating Percent VoIP Usage ("OPVU") factor to the total intrastate access MOU originated by a Telephone Company end user and delivered to the customer and by applying a terminating PVU ("TPVU") factor to the total intrastate access MOU terminated by a customer to the Telephone Company's end user. The OPVU and TPVU will be derived and applied as follows:

- (1) The Telephone Company will calculate and implement an OPVU factor representing a whole number percentage based on total traffic originated by Telephone Company end users in IP format and delivered to the customer in the State divided by the Telephone Company's total originated intrastate access MOU delivered to the customer in the State.
- (2) The customer will calculate and furnish to the Telephone Company a TPVU factor, along with supporting documentation, representing the whole number percentage of the customer's total terminating intrastate access MOU that the customer exchanges with the Telephone Company in the State that is sent to the Telephone Company and originated in IP format.
- (3) The TPVU and supporting documentation shall be based on information that is verifiable by the Telephone Company including but not limited to the number of the customer's retail VoIP subscriptions in the state (e.g., as reported on FCC Form 477), traffic studies, actual call detail, or other relevant and verifiable information. The customer shall not modify its reported PIU factor to account for VoIP-PSTN traffic.

Issued: December 20, 2011

Effective: January 19, 2012

SECTION 2 - REGULATIONS

- 2.3 Obligations of the Customer (Cont'd)
 - 2.3.4 Identification and Rating of VoIP-PSTN Traffic (cont'd)
 - (C) Calculation and Application of Percent-VoIP-Usage Factor (cont'd)
 - (4) After the Telephone Company verifies the TPVU provided by the customer the Telephone Company will apply the TPVU factor as well as the OPVU developed by the Telephone Company to the respective terminating and originating intrastate access MOU as indicated in Sections (D) and/or (E) below.

In the event that the Telephone Company can not verify the customer's TPVU, the Telephone Company will request additional information to support the TPVU, during this time no changes will be made to the existing TPVU. The customer shall supply the requested additional information within 15 days of the Telephone Company's request or no changes will be made to the existing TPVU. If after review of the additional information, the customer and Telephone Company establish a revised and mutually agreed upon TPVU factor, the Telephone Company will begin using the new factor with the next bill period.

If the dispute is unresolved the customer may request that verification audits be conducted by an independent auditor, at customer's sole expense. During the audit, the most recent undisputed TPVU factor will be used by the Telephone Company.

Issued: December 20, 2011

Effective: January 19, 2012

SECTION 2 - REGULATIONS

2.3 Obligations of the Customer (Cont'd)

2.3.4 Identification and Rating of VoIP-PSTN Traffic (cont'd)

(D) Initial OPVU and TPVU Factor

In calculating the initial OPVU and TPVU factor(s), the Telephone Company will take the factor(s) provided by the customer into account retroactively to January 1, 2012, provided that the customer provides the factor(s) and supporting documentation, as specified in subsection (C) above to the Telephone Company no later than 15 days after the effective date of this tariff. If the customer does not furnish the Telephone Company with an TPVU factor pursuant to the preceding subsection (C), the initial factor will be zero.

(E) OPVU and TPVU Factor Updates

The customer may update the TPVU factor semi-annually using the method set forth in subsection (C), above. If the customer chooses to submit such updates, it shall forward to the Telephone Company, no later than 15 days after the first day of January and/or July of each year, a revised TPVU factor and supporting documentation based on data for the prior three months, ending the last day of December and/or June, respectively. If the customer submits a TPVU factor update the Telephone Company will, within 15 days of receipt of such request, provide and updated OPVU factor with supporting documentation to the customer. Within 15 days of receiving the customers revised TPVU factor the Telephone Company will verify and either request additional information or apply the TPVU and associated Telephone Company developed OPVU. Once verified by the Telephone Company the revised TPVU factor along with the revised Telephone Company developed OPVU will apply prospectively and serve as the basis for billing until superseded by a new verified factor.

Issued: December 20, 2011

Effective: January 19, 2012
